History

PCL West opened its doors in January 1989 in Downtown Los Angeles with the intention of becoming a photographic leader and a nationally recognized photo lab.

PCL West was started by Victor Fujikake, who after having served overseas Active Duty in the United States Army came home with a love for photography and the drive to learn the photography business. He was hired by Mike Trerotola at Alfa Color in Los Angeles, Ca, which at that time was nationally known for its quality and service. Victor worked as Operations Manager at Alfa Color for many years and was always harboring an ambition to own his own business.
